

# Overseas Study Advising Form Instructions

Students must complete the steps below. Kelley School of Business students participating on a Kelley study abroad program should follow the instructions provided by the Kelley International Programs office.

Study abroad advisors reserve the right to cancel advising form appointments with students who fail to complete the advising form process (i.e. not submitting a signed advising form ahead of appointment).

Note: we recommend you begin this process early to give yourself enough time as academic advisor appointments fill quickly later in the semester; however, the advising form is **not** due to Overseas Study by the program application deadline.
