Important Notes:

- Not all of these courses will be offered each term. The courses listed are those that IU students have taken in the past. They do not represent ALL courses available as part of the program. You can find a potential list of courses available on the [Rio-CIEE program website](#) (CIEE does not list IU equivalencies) or on the [PUC-Rio website](#).
- Undistributed 100-level (-OS 100) courses have not yet been evaluated by an IUB department. Courses with a DEPT–OS 100 equivalent will be applied towards overall credits to graduate. However, students may submit the course materials to that department to be evaluated for specific credit either before or after studying abroad. If a course is listed as OS200/300/400, the course has been evaluated by the academic department.
- Students will work with onsite staff after arrival to select local university courses. Course offerings change frequently and information about required prerequisites is not readily available in advance. Brazilian universities typically do not publish course syllabi.
